

Name of the app: Customisable Calendar App

Name of department/sector: General Administration

Team Members:

1. Anil Kumar Sharma-Emp Code: 2727
2. Anish Sharma – Emp Code : 6803

Target Audience: General Public

Objectives: The main objective is to create a digital calendar which is customisable according to the needs of different users and have a simple and pleasant user experience. As we know there are different holidays at different locations in our country, so the idea behind the app is to be able to cater to the needs of each location so that the holidays can be displayed as per the location.

Benefits to the end user: The app will ensure that the users don't have to look up online or on their paper calendars for holidays as the data is stored locally on their phones with color coding.

Platform/Technology to be used: Android Studio is being used for the development of this app.
